

Thank you for choosing the solum product.

Please read the following manual and product information completely.

Please keep the manual in a safe place for reference if necessary.

---

## Operation

- According to the manufacturer and model of the device you use, charging may not be supported due to compatibility issues. Please be sure to check the device specifications before purchasing.
- Actual charging speed may vary depending on charging conditions and instruments.

---

## Safe Handling Information Troubleshooting

- Working temperature: 0-35°C
- Protect the product from dust, moisture and overheating and use it only in dry rooms.
- Do not drop the product and do not expose it to major shocks.
- Do not operate the product beyond the power limits specified in the specifications.
- Do not disassemble (repair) the equipment in any way. It will invalidate your warranty.
- If the device is significantly damaged, do not continue to operate.
- Use the product for its intended use only.
- Keep it out of the reach of children like all electrical appliances!
- Do not use the product near heaters or other heat sources or in direct sunlight.
- Do not use a hair dryer for heating
- Do not put it in the microwave.
- Place all cables to avoid tripping.
- Do not bend or crush the cable.
- When disconnecting the cable, always pull the plug directly, do not pull the cable itself.
- Dispose of packaging materials immediately in accordance with local application regulations.
- This product can only be used indoors.
- Do not use the product where electronic devices are not permitted.
- Do not use the product in humid environments and avoid splashing water.
- Do not hold the adaptor or cable with wet hands.
- When connecting to the AC main socket, avoid skin prolonged contact with the power supply. It may cause discomfort or injury.

---

## Electric Shock or Burn Hazard

- If the device is damaged, please do not open or continue operation.
- Do not use the product if the AC adapter, adapter cable, or power cable is damaged.
- Do not self repair or repair the product. Please leave all service tasks to qualified professionals.

## Warning

- Connect the product only to the socket approved for the device. The socket must be installed close to the product and easy to access.
- When using a multi-socket power strip, ensure that the total power consumption of all connected devices does not exceed the maximum throughput rating.
- If the product has not been used for a long time, please disconnect the main power supply.

---

**Connection Terminal**

- Before connecting a terminal device, make sure that the power output of the charger can provide sufficient power to the device.
- Please refer to the instructions in the user manual for connecting the device.

---

**How to Operate Solum-Charger**

Unless the operating instructions for the device to be charged are explicitly provided, proceed as follows:

- Connect the terminal device to the USB charging socket using a suitable USB cable.
- Connect the charger to a properly installed and easily accessible power socket.
- Disconnect the terminal device from the charger if it stops charging or if the device is fully charged.  
Then remove the charger from the main power supply.

---

**Maintenance and Care**

If not used for a long time, please disconnect the power supply from the device.

**Warranty Disclaimer**

Solum is not responsible for any damage caused by improper installation, improper use of the product, or failure to comply with operating instructions and/or safety precautions, and provides no warranty.

**Warranty Information**

- A/S is available for 2 years from the date of purchase of the product only for defects in performance and function of the product that occurred during normal use.
- If the product is lost or damaged due to customer's responsibility, it cannot be exchanged or returned.
- If the value of the product decreases over time to a point where it is difficult to resell, it cannot be exchanged or returned.
